

IMPORTANT SAFETY RECALL**P14 / NHTSA 14V-154**

This notice applies to your vehicle (VIN: xxxxxxxxxxxxxxxxxxxx).

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Dear: (Name)

Chrysler has decided that a defect, which relates to motor vehicle safety, exists in some **2011 through 2014 model year Dodge Durango and Jeep® Grand Cherokee vehicles.**

***The problem is...* The brake booster on your vehicle may prematurely corrode. If perforation of the brake booster shell (due to corrosion) occurs, the brake booster may ingest water during vehicle operation in wet weather conditions.**

A brake booster that has experienced water ingestion may have the brake function compromised if the water inside the brake booster freezes. The driver may be required to apply additional application force to apply the brakes during sub-freezing driving conditions. An unexpected additional brake pedal application force requirement could slow the driver's brake application reaction time and cause a crash without warning.

***What your dealer will do...* Chrysler will repair your vehicle free of charge (parts and labor). To do this, your dealer will test the brake booster, install a protective brake booster shield and/or replace the brake booster if required. The work will take about one hour to complete. However, additional time may be necessary depending on service schedules.**

***What you must do to ensure your safety...* Simply contact your Chrysler, Jeep, or Dodge dealer right away to schedule a service appointment. Please bring this letter with you to your dealer.**

***If you need help...* If you have questions or concerns which your dealer is unable to resolve, please contact the Chrysler Group Recall Assistance Center at 1-800-853-1403.**

Please help us update our records by filling out the attached prepaid postcard if any of the conditions listed on the card apply to you or your vehicle. You may also update this information on the web at
