HOME IS WHERE THE CHARGE IS

CHARGING STATION.

This fixed-position electric vehicle charger installs in your garage or near your parking area, indoors or outdoors. It plugs into a 208–240 VAC outlet and delivers AC power to the on-board charger of your FIAT® 500e. It only takes this charger about four hours to take your vehicle's battery from fully depleted to fully charged. The charger has an industry-standard SAE J1772 connector and comes with 25 feet of cord. Must be professionally installed and inspected before using. See your FIAT 500e Studio team for information about professional installation through our partner, AeroVironment.
