The true sports car is back. The Fiat® 124 Spider for 2018 takes its cues from the original 124 Spider, the 1967 European Car of the Year. Its exceptional agility and signature roominess won over drivers decades ago. Now, a whole new generation will aspire to mingle with the highway’s most irreverent player. Let the adventure begin.
CLASSICA
Classic beauty and driving pleasure in its purest form.

• 1.4L MultiAir® Turbo 160 hp with 6-speed manual transmission
• 16-inch Silver aluminum wheels
• AM/FM Bluetooth® radio with 3-inch display and four speakers

• Performance-tuned with Sport Mode Selector
• SiriusXM® Satellite Radio® with one-year trial subscription
• Sport, front, and rear fascias
• Sport-tuned, quad bright-tip exhaust

* A note about this brochure: all disclaimers and disclosures can be found on page 21 of the FIAT 124 Spider section.

Go to fiatusa.com for more exciting FIAT® 124 Spider highlights.
Your reputation behind the wheel gets a boost with up to 164 horsepower* from the 1.4L MultiAir® Turbo engine. Additionally, the short-throw shifting of the standard six-speed manual transmission, electric power steering system, electronic traction control and Electronic Stability Control (ESC) make for tighter corners and fast straightaways.

Near-perfect 50/50 weight distribution, lines that compel your eyes to follow along, exquisite materials and fine finishes all contribute to the extraordinary, captivating appeal of FIAT® 124 Spider. Engineers created a soft top with an assist spring that manually opens or closes simply and effortlessly in three seconds or less. **FIAT® 124 Spider** has all the makings to be your perfect getaway car.

*160 hp on FIAT® 124 Spider Classica and Lusso models. 164 hp on Abarth model.
SPEED PRODUCTION

The FIAT® 1.4L MultiAir® Turbo four-cylinder with twin intercoolers delivers up to 164 hp* and 184 lb-ft of torque, and can be teamed with either the standard six-speed manual or available six-speed automatic transmission. The upshot? The FIAT 124 Spider gets to peak power and torque at a much lower rpm.

Real-world driving isn’t all smooth sailing. That’s why FIAT 124 Spider is equipped with a double-wishbone front and multilink rear suspension that enhances steering response and handling. Plus, its 1.4L MultiAir Turbo engine serves up great mid-range torque for easy passing when you need it most — so you can enjoy a great ride no matter what lies ahead.

*160 hp on FIAT 124 Spider Classica and Lusso models. 164 hp on Abarth model.
IT’S EVEN MORE “YOU”
The collection of authentic Mopar® accessories will pack your FIAT® vehicle with even more punch. From custom graphics like the available Hand-Painted Heritage Racing Stripe (shown) to unique interior upgrades, Mopar has what you need to get the most out of your vehicle. See a full listing of available accessories at mopar.com.

SCORPION DNA ADDS AN EXTRA DOSE OF VENOM TO THE FIAT® 124 SPIDER ABARTH

Abarth reveals the wild side of the FIAT 124 Spider and is the ultimate model for true enthusiasts. Whether the demands of the day’s course, FIAT Abarth amps things up with a mechanical limited-slip differential, Sport Mode button, Bilstein® selective-damping shock absorbers and 17-inch Gun Metallic aluminum wheels. Optional race seating and specially tuned quad exhausts turn up the adrenaline even more. Finishing touches include Gun Metallic roll bar covers, windshield surround and Matte Grey interior accents. The operative word here? Swoon.
Pedigree reveals itself in even the smallest details. It’s clear the latest FIAT® 124 Spider was created with the same passion for exquisite design as its popular predecessors. Among a number of original 124 Spider design cues, the aerodynamic rear features FIAT signature LED taillamps in the iconic rectangular oval shape that caresses the sides of the roadster to enhance its curves. Just a quick glimpse tells you: this is a natural-born Spider.

ABARTH-TUNED PERFORMANCE FEATURES MOVE THE NEEDLE INTO THRILLING TERRITORY.
REVEL IN IT
FIAT® 124 Spider manages to create what other roadsters can’t: space. Boasting generous cargo room, the meticulously designed interior offers refined materials, quality leather and Italian-inspired design. Notably soft touchpoints, instruments, storage and technology are all expertly delivered with the driver in mind.

NOW HEAR THIS
With the available FIAT Connect 7.0, you’ll enjoy full access to the world at large via an advanced available multimedia system with a 7-inch full-color touchscreen display. Available SiriusXM® Satellite Radio with one-year All-Access trial, MP3 player and available nine Bose® speakers create the soundtrack of your drive.

COMMUNICATION MAJOR
The available Bose® Audio System delivers premium audio clarity with nine speakers—including two Bluetooth® speakers—located in both front doors, rear deck, and headrests. They work to deliver clear, detailed sound to both driver and passenger, even with the top down. Included in the available Navigation and Sound Group or Red Top Edition (late availability).

Ivory leather trim with Ivory double stitching packaged with Red Top Edition (late availability).

*Not available on Abarth.

*Available on Classics.

**Not available on Classica.**
BLOW SPOT MONITORING® WITH REAR CROSS-PATH DETECTION™ can constantly monitor the space between you and other vehicles. When a side or rear blind spot is encroached, this feature notifies you via illuminated icons on your mirror mirrors. Available on Lusso and Abarth models.

PARKVIEW® REAR BACK-UP CAMERA™ provides a wide-angle view of the area immediately behind the vehicle, giving the driver greater peace of mind before moving backwards at low speeds. It displays dynamic grid lines on a color touchscreen to aid the driver when the vehicle is in Reverse. Standard on Lusso and Abarth; available on Classica.

STEEL SAFETY FRAME. The very core of FIAT 124 Spider’s strong bodywork is constructed with high-tensile-strength steel that includes crumple zones designed to help absorb energy in the event of a collision and redirect it away from passengers.

Electronic Stability Control (ESC)™ is designed to assist drivers in maintaining control of their vehicles during extreme steering maneuvers. ESC senses when a vehicle is starting to spin (oversteer) or plow (understeer) and attempts to correct the vehicle’s course by automatically controlling the throttle and applying the brakes to individual wheels. Standard on 124 Spider.

Air Bag System™ will start with dual-stage front air bags in addition, supplemental seat-mounted side air bags work to cushion impacts for all passengers.

FIAT 124 Spider Safety & Security
A range of options for added confidence.

Beyond its carefree, fun-to-drive persona, here are just some of the advanced FIAT 124 Spider features that will offer extra peace of mind:

ELECTRONIC STABILITY CONTROL (ESC)™ is designed to assist drivers in maintaining control of their vehicles during extreme steering maneuvers. ESC senses when a vehicle is starting to spin (oversteer) or plow (understeer) and attempts to correct the vehicle’s course by automatically controlling the throttle and applying the brakes to individual wheels. Standard on 124 Spider.

High-tensile-strength steel chassis components

Three standard air bags 6

Three-point seat belts

Control (ESC) 2

ON GUARD

• Four standard air bags*• 3-point seat belts• High-strength steel chassis components• Electronic Stability Control (ESC)*

For vehicles with a passenger front air bag, always secure the child restraint system on the opposite side behind the booster seat or such system on the front passenger seat. When using a child restraint system, always follow the child restraint system manufacturer’s instructions. Some booster seat instructions may require a child restraint system to be secured on the front passenger seat. Always follow the vehicle manufacturer’s instructions when installing a child restraint system. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear seat belts properly with the head restraint properly adjusted. Never place anything in front of the head restraint. The Advanced Front Air Bags in this vehicle are certified to the new U.S. Federal regulations for Advanced Air Bags. This brochure is a publication of FCA US LLC. Go to fiatusa.com for more exciting FIAT Abarth highlights.
The Uconnect® 3 with 5-inch touchscreen display gives added dimension to the overall performance of Abarth. It features AM/FM, Integrated Voice Command® with Bluetooth® plus a versatile media hub with USB and auxiliary ports. The available six-speaker BeatsAudio™ Premium Sound System offers six top-of-the-line speakers and a subwoofer for studio-quality music every trip.

NERO TOP GRIGIO TOP
A performance-designed cockpit incorporates parts that make a strong case worth driving. High-back bucket seats available in high-grip cloth or Nero leather-faced incorporate a racing harness pass-through and firm side bolsters. A three-spoke leather-wrapped steering wheel with a race-style flattened bottom reminds that this is a vehicle intended for both driving and competitive performance.

FIAT 500 Abarth Cabrio shown in Bianca Perla.

A DOMINANCE GENE
It was born from the vision of Karl Abarth almost a century ago. Now the latest generation of the FIAT® 500 Abarth brings its own brand of outstanding performance, aggressive styling and technological advancement. A union of highly engineered components and exclusive design elements makes for track-worthy performance, on or off the course. Look to the available heavy-duty six-speed automatic transmission with Abarth-tuned Sport mode to provide a gutsy alternative to manual shifting.

This groundbreaking engineering is mated to the track-tested 1.4L MultiAir® Turbo engine that kicks out 157 horsepower and 183 lb-ft of torque. Torque Transfer Control (TTC) is a dynamic feature that keeps all that power in check by transferring power to the drive wheels for improved at-the-limit handling. It operates with the Electronic Stability Control (ESC) system to transfer torque from a front wheel that slips to one that grips.

Now there’s an emissions-free vehicle that generates as much excitement as it does unbridled power. The FIAT 500e shakes up the Electric Vehicle market by infusing an integrated approach to electric propulsion into the beloved FIAT Italian design tradition of fun, city-friendly, driver-responsive cars. Expect 121 MPGe,* with highway range of over 100 miles, made possible by the innovative 24kWh lithium-ion battery that utilizes a Battery-Electric Drive System. Charge time is less than four hours with the installation of a Level 2 charger (220v/240v). A regular home outlet charges 500e in less than 24 hours.

The 7-inch Thin Film Transistor (TFT) instrument panel and integrated Electronic Vehicle Information Center (EVIC) keep the driver briefed on estimated charging times, average speeds, energy consumption and more. A Power Inverter Module (PIM) creates those nimble FIAT 500 handling characteristics by providing a quick accelerator pedal response every time.

*2017 EPA-estimated miles per gallon of gasoline equivalent (MPGe). Actual mileage may vary.
• 83-kW Electric Drive Motor: 111 hp/147 lb-ft of torque with single-speed gearbox

Whether you’re enjoying Abarth-style performance or innovative FIAT 500e driving, here are just some of the advanced features that will offer extra peace of mind:

**ELECTRONIC STABILITY CONTROL (ESC)** is designed to assist drivers in maintaining control of their vehicles during extreme steering maneuvers. ESC senses when a vehicle is starting to spin (oversteer) or plow (understeer) and attempts to correct the vehicle’s course by automatically controlling the throttle and applying the brakes to individual wheels. Standard.

**PARKSENSE® REAR PARK ASSIST SYSTEM** can help you park and back out with grace. When the vehicle is in Reverse, these available sensors detect objects in the rear back-up pathway and also provide an audible and visual warning so you have time to react. Standard.

**HILL START ASSIST** is especially helpful when the grades are steep, this standard feature maintains brake pressure during the moments the driver lifts the foot off the brake and engages the clutch and gas pedal to gain forward momentum — for a smooth start every time. Standard.

**TIRE PRESSURE MONITORING SYSTEM** takes the guesswork out of deciding if your tires are at optimum fill level. It provides crucial, pinpointed information on your EVIC at the moment tire pressure falls below safe driving criteria. Standard.

**SEVEN STANDARD AIR BAGS** are in every FIAT 500 Abarth and 500e model, surrounding you with a comprehensive air bag system. It features full-length front and rear side-curtain, driver’s inflatable knee blocker, seat-mounted side-for front occupants, and advanced multistage driver and front-passenger air bags, all working together to help provide encompassing protection.

**BIFUNCTIONAL HALOGEN PROJECTOR HEADLAMPS** provide more controlled illumination for increased visibility. Standard.

**PARKVIEW® REAR BACK-UP CAMERA** provides a wide-angle view of the area immediately behind the vehicle, giving the driver greater peace of mind before moving backwards at low speeds. It displays dynamic grid lines on a color touchscreen to aid the driver when the vehicle is in Reverse. Standard.

**NOW HEAR THIS** The extremely quiet FIAT 500e has an audible pedestrian warning system that uses distinctive sounds to help ensure the safety and security of other road users.
